

Governance

This is where we will store Governance documents and TSC Priorities

Community Priorities

This is where we can list out the PNDA Community Priorities. Feel free to add to or comment below.

- Review Technical Community Document
 - Project Roles
 - Project Operations
 - Project Lifecycle
 - May be good, just need to review and make a few tweaks.
 - Forming the TSC
 - Pick 3? Pick from the 3 current active orgs.
 - Operations
 - Election Mechanics
 - Responsibilities of the TSC
 - Subcommittees
- Release Planning
 - Release Schedule?
 - 2x year
 - [Carlos Giraldo Rodriguez](#) to help identify the release window.
 - The first release in this cadence could possibly be in Q2.
 - LTR? Cannot support an LTR at this time.
 - Testbed lab
 - Follow up with OPNFV team to see if we can leverage their Pharos labs.
 - Dev Process [Carlos Giraldo Rodriguez](#) to provide a proposal in email and to the next community meeting. **21 Oct 2019**
 - Master Branch
 - Feature Branch creation
 - Developers forking from the Developer/Feature branches
 - Pull/Merge Request Creation
 - Design and code review
 - Commit/Merge into Feature/Master Branch as per the process followed by Release Tagging
- Community PNDA Implementations
 - What data to collect? (Org, Contacts, Early Evaluations, Formal Lab Deployments, Staging Deployments and Production Deployments (end user anonymized.))
 - Goal to deliver a Cloud-Native distro integration with ONAP sometime in ~6 months [Donald Hunter](#) to reach out to ONAP. **21 Oct 2019**
- Developer Diversity
 - Customers using code but not contributing
 - Community Metrics
 - Internship / Outreach
- Documentation [Casey Cain](#) to update [Donald Hunter](#) and Community about who a good resource for migrating to RTD. **21 Oct 2019**
 - What platform / where do we store docs?
 - ReadTheDocs / Sphinx ?
 - "First Touch" Documentation
 - Demos
